

ODOR-X-TERMINATOR

DESCRIPTION

Odor-X-Terminator is an enzyme-based product which reduces the odor and leaves pleasant fragrance behind.

It is excellent for basements with mold odor, mildew odor, pet odors, urine stains/odors on carpet and hard floors—such as wood or tile—vomit odor, milk odor, and sewage odor.

ADVANTAGES

Odor-X-Terminator is made with live bacterial enzymes, which quickly and safely reduce malodor. It is non-toxic and non-pathogenic.

Made in the U.S.A.

CONDITIONS OF SALE

Always follow all label directions. The manufacturer cannot control weather conditions, methods of application nor the condition of the surface at time of application. Buyer assumes all risks of use, storage or handling of this product when used in a manner inconsistent with label directions.

APPLICATION

SURFACE PREPARATION:

APPLICATION:

Hard Surfaces: Dilute 4–6 oz of concentrate with 1 gallon of water for mopping floors.

Carpets and Upholstery: Dilute 4–6 oz of concentrate with 1 gallon of water for carpet shampoo machines.

Stain removal and malodor: Do not dilute the concentrate; use as is.

STORAGE & SHELF LIFE

Store between 40°F–90°F (room temperature) and away from direct sun light. Keep container closed when not in use. Product can be stored up to five years. If product is stored for a long time, lightly agitate or shake well before use.

CAUTION

Keep product away from eyes. Do not swallow or ingest this product. The use of rubber, neoprene, nitrile or other protective gloves is recommended where prolonged or extensive use is expected. Wash hands thoroughly with soap and water after handling.

FIRST AID

EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if irritation persists.

SKIN: Flush affected area with plenty of water. Consult a physician if irritation develops.

INGESTION: If this product is swallowed **do not** induce vomiting. If vomiting occurs, keep head below hips to prevent aspiration (breathing) of liquid into the lungs. Get emergency medical attention immediately

APPLICATION

SYNACID is a non-corrosive, odorless, fumeless, and biodegradable cleaner capable of outperforming many traditional acids like Muriatic, hydrochloric and many other organic acids.

Synacid is the world's only synthetic acid, which is Nano Enhanced and designed to penetrate the toughest surface medium to work in less than half the time compared to traditional acids.

It is designed to dissolve and loosen the heaviest mineral or calcium deposits from metal, concrete and many hard surfaces. Will not harm or rust the metal surfaces.

SYNACID is 100% synthetic, and ecofriendly. It will biodegrade up to 90% within 10 days of expose.

CONDITIONS OF SALE

Always follow all label directions. The manufacturer cannot control weather conditions, methods of application nor the condition of the surface at time of application. Buyer assumes all risks of use, storage or handling of this product when used in a manner inconsistent with label directions.

Do to mix with other chemicals or cleaning products.

Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

CAUTION

Wear rubber gloves and eye protection to protect from over spray if necessary. If swallowed, seek medical attention. If eye contact occurs, flush the eye(s) with water for 10 minutes. If skin contact occurs, wash the skin with warm water and soap.
